

Technical Specification Sheet

Glanwell Engineered Natural Oak Brushed & Oiled Wood Flooring

Product code: 125143B01

Product Overview

The Glanwell Engineered Natural Oak flooring offers a timeless and natural appearance, enhanced by a brushed and oiled finish that brings out the unique grain of the wood. Designed for both durability and style, this engineered construction provides excellent stability, making it suitable for a wide range of interior spaces.

Construction Details

This flooring features a multi-layer engineered construction, designed to provide enhanced strength and stability compared to solid wood.

- Top layer: 3mm solid oak veneer
- Core layers: High-density plywood or timber layers
- Backing layer: Stabilising base layer

This structure helps reduce movement caused by changes in temperature and humidity, making it a reliable choice for modern homes.

Finish & Surface

The brushed and oiled finish gives the flooring a beautifully natural look and feel.

- Brushing enhances the grain, adding texture
- Oil penetrates the wood, offering a soft, matte appearance
- Allows for easier spot repairs compared to lacquered finishes

This finish is ideal for those looking for a more organic and characterful floor.

Installation Information

This product offers flexible installation options:

- Floating installation over suitable underlay
- Glue-down installation for a more solid feel
- Nail-down installation over timber subfloors

Professional installation is recommended for the best results, although experienced DIY installation is possible.

Key Specifications

Specification	Details
Product Name	Glanwell Engineered Natural Oak
Flooring Type	Engineered Wood
Wood Species	Oak
Finish	Brushed & Oiled
Thickness	14mm
Wear Layer	3mm Solid Oak Top Layer
Board Width	125mm
Board Length	Random Lengths (Typically 300–1200mm)*
Edge Detail	Micro Bevel
Grade	Natural Grade
Installation Method	Floating, Glue-Down or Nail-Down
Pack Coverage	<i>To be confirmed</i>
Underfloor Heating	Suitable (see guidelines)
Moisture Resistance	Moderate (engineered stability)
Surface Texture	Brushed
Finish Type	Natural Oil
Profile	Tongue & Groove
Room Suitability	Living Areas, Bedrooms, Hallways
Commercial Use	Light Commercial

*Please confirm exact measurements and pack details before final publication.

Underfloor Heating Compatibility

Suitable for use with underfloor heating systems, provided guidelines are followed:

- Maximum surface temperature: 27°C
- Gradual heating changes are essential
- Ensure correct subfloor preparation

Always refer to installation guidance before use.

Maintenance Overview

To maintain the appearance and longevity of this flooring:

- Clean regularly with a soft brush or vacuum
- Use a damp (not wet) mop
- Apply maintenance oil periodically
- Avoid harsh chemicals and excess moisture

A full care guide is recommended for best results.

Environmental & Performance Notes

Engineered wood flooring offers a more efficient use of natural timber compared to solid wood, making it a more resource-conscious choice.

- Designed for stability in changing environments
- Long lifespan with proper care
- Suitable for modern living conditions

Important Notes

- Ensure flooring is acclimatised before installation
- Check all boards before fitting
- Natural variations in colour and grain are to be expected
- Not suitable for wet areas such as bathrooms

Final Thoughts

The Glanwell Engineered Natural Oak flooring combines classic design with modern performance. Its brushed and oiled finish enhances the natural beauty of the wood, while the engineered construction ensures it performs well in everyday living spaces.
